

Administrative Unit Center Points with Population Estimates, v4.11

Gridded Population of the World, Version 4 (GPWv4)

• Centroid of input administrative unit

Map Credit: CIESIN Columbia University, December 2018.

Gridded Population of the World, Version 4 (GPWv4) Administrative Unit Center Points with Population Estimates, Revision 11 consists of UN WPP-adjusted population estimates and densities for the years 2000, 2005, 2010, 2015 and 2020, the 2010 basic demographic characteristics (age and sex), and administrative name, area, and data context by administrative unit center point (centroid) location. The center points are based on approximately 13.5 million input administrative units used in GPWv4.
